

# 8th Annual RECYCLED ART SHOW

April 16th ~ 6:00pm

The Re-Store Warehouse's Annual Recycled Art Show, held at the Re-Store Warehouse 205 Forsythe St., has been part of the Fayetteville Dogwood Festival for the past 8 years. Participants design artwork from recycled materials for the show. A panel of judges will grade the entries and award prizes. You are only limited by your imagination and your ability to find recycled material!

### Guidelines:

Complete and return the entry form with your artwork by April 15, 5pm. Include a complete description of artwork and quality photographs of up to 3 individual pieces.

Artist statement about the individual pieces or the concept of recycled art may be included.

Entries of all types and sizes are accepted. Space is limited. Please contact The Re-Store Warehouse in advance if you require space for a large scale piece.

Submitted artwork will be considered "Recycled Art" if it is entirely or primarily composed of material(s) that would have been disposed of via landfill or incinerator. With respect to the Re-Store's reuse mission, special appreciation is reserved for materials that are used or manipulated in their original form, without extensive reprocessing.

Artwork will not be for sale or sold during the event. Selected pieces must remain on display for the duration of the show. Artist cards or brochures may be on hand during the event.

All entries will be eligible for prizes according to entry category. A special People's Choice Award will be given for the work that receives the most votes.
